Hinterdorfstrasse 7, 8113 Boppelsen, Zurich, Switzerland

PROFILE

Industrial engineer (Universidad de Ciencias Comerciales, Nicaragua) with 15+ years of operations, quality and data experience, now transitioning into software development. Since arriving in Switzerland in June 2024 as an asylum seeker, I have self-taught programming, built a four-language portfolio website with an interactive task-tracker dashboard, and advanced my German from A1 to B2 — while volunteering actively in my community. I now aim to turn this momentum into a professional career in software.

EDUCATION

Industrial Engineering — Universidad de Ciencias Comerciales (UCC), Nicaragua — 2020
Quality Management Specialization — UCC, Nicaragua — 2020
German as a Second Language (A1 → B2) — ECAP, Zurich — Feb 2025 – Apr 2026

PROFESSIONAL EXPERIENCE

Community Volunteer & Aspiring Software Developer — Switzerland — 2024–present
Asylum seeker (permit N). While unable to hold an official work contract, I have stayed active, integrated and learning:

- Volunteer French teaching assistant (grades 5–6) at the Regensberg school.
- Volunteer firefighter (trial year) with Feuerwehr Unteres Furttal.
- Community volunteer with AOZ/ORS asylum centres and the municipality of Boppelsen — forest, cemetery, kitchen and facility maintenance.
- Completed German A1 → B2 at ECAP (Feb 2025 – Apr 2026); now preparing for the B2 certification exam with Solinetz.
- Self-taught software development: built a 4-language portfolio site with an interactive task-tracker dashboard (HTML, CSS, JavaScript, Git/GitHub).

Onboarding Specialist — Trax Retail (retail execution) — 2023–2024

- Onboarded 5–10 new representatives per day, guiding them through mobile-app setup, task execution and deadlines.
- Reduced time-to-proficiency for new representatives through hands-on digital-adoption support.
- Resolved platform issues and helped users achieve onboarding objectives in a fully remote environment.

Consultant — GEO Strategy Partners (market research) — 2020–2021

- Delivered international market-research projects across North America and Europe.
- Recruited and interviewed professionals to client-defined criteria; designed screening surveys.
- Analysed data in Excel and Google Sheets for multilingual (EN/FR) stakeholders.

Operations Manager — Selina Hotel Maderas (boutique hotel) — 2017–2018

- Directed operations, maintenance and infrastructure projects for a boutique hotel.
- Supervised renovation works and maintenance teams; planned staffing and events.
- Coordinated suppliers, purchasing and operational logistics.

Head of Operations & Maintenance — DETUNSA (event venues) — 2016–2017

- Planned and supervised events from 100 to 1,000+ attendees.
- Designed event layouts in AutoCAD; coordinated suppliers, safety and support teams.

- Worked across sales, HR, IT, purchasing, F&B and security on budgeting and quality initiatives.

Head of Operations — ICONSA/TEMPANO (industrial ice production) — 2015–2016
- Co-launched a new ice-production facility, from equipment installation to operations.
- Designed production workflows, cost structures and production-time measurement systems.
- Led HACCP implementation, quality control and critical-control-point monitoring.

General Manager — PAEBANIC/MINED (education-sector institution) — 2012–2014
- Directed administrative, commercial and operational activities; led training and workforce development.
- Managed contracts, supplier relationships and infrastructure projects; represented the institution in negotiations.

Budget Analyst — Supreme Court of Justice of Nicaragua — 2006–2012
- Managed national-budget formulation, execution control and reporting (results-based management).
- Digitalised budget workflows with spreadsheet solutions, cutting duplicate and repetitive administrative work.
- Supported internal audits and regulatory review processes.

ADDITIONAL EXPERIENCE

Customer Support Specialist — SITEL — 2022–2023
Key Account Manager — Mighty Moose Media — 2021
Customer Support Specialist — Remitly — 2020
Customer Support Specialist — Inspiro / Coinstar — 2018–2019
French Teacher — Alliance Française — 2010–2011
Spanish Language Assistant — Académie de Lille, France — 2005–2006

SELECTED PROJECTS

- Task Tracker Dashboard — interactive web dashboard migrating an Excel task tracker to the browser; four languages; AI-assisted build (HTML/CSS/JS).
- Personal Portfolio Website — four-language site (EN/ES/FR/DE) with dark/light mode; deployed on Netlify.
- Water Quality & HACCP Monitoring Dashboard — spreadsheet dashboard for compliance monitoring.
- Customer Communication Workflow Automation — automated customer communication workflows (n8n/Make).

TECHNICAL SKILLS

Web: HTML, CSS, JavaScript · Tools: Git & GitHub, Excel (advanced), n8n/Make, AI productivity tools · Learning: Python

LANGUAGES

Spanish C2 (native) · French C1 (DALF) · English C1 · German B2
